## BEST PRACTICE

2024-25

### 1. TITLE OF THE PRACTICE: ENVIRONMENT PROTECTION

Instilling the habit of environment protection among the students is one of the core objectives of our college. It refers to the taking of measures to protecting the natural environment, prevent pollution and maintain ecological balance. The college makes the students aware about the environmental protection through different activities.

### 2. OBJECTIVES OF THE PRACTICE

- To make every student aware about the environmental protection.
- To bring holistic development.
- To transform the valuable youth energy to save environment.
- To help the government in implementing its different schemes.
- To conserve the existing natural environment and natural resources and, when possible, repair of damage and reversal of harmful trends.

### 3. THE CONTEXT

Education is not just acquiring knowledge and obtaining degree but using the knowledge gained to the benefit of the mass. Instilling social responsibility in a student helps him to realize his/her potential and turn it to his own benefit and to the benefit of the society. It helps to foster empathy in students and help them to balance self, society and environment. Students feel their responsibility for the protection of the environment.

### 4. THE PRACTICE

- Students force is used to save environment.
- Students are trained to take the schemes to save environment.

### 5. EVIDENCE OF SUCCESS

- Students move out of the campus and serve the society.
- Students rendered first hand assistance by planting trees and also distributing plants and related to environment protection.
- Students are the active volunteers of Swachhta he Seva Abhiyan, Ek Ped Maa ke Naam, Bird Friend Campaign.

## 6. PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED

- Attendance of the students
- Raising funds for activities.
